

Weekly Citizen

ALBUQUERQUE, — JUNE 22, 1895

PANTS FE has organized a bicycle club. The political road is still a long one to travel. It is a good thing. **THE CITIZEN**, push it along!

New Mexican persistently tries the legal cases at Santa Fe.

On June 18 the people of San Marcos will open a new skating rink.

Copies of this paper go to every post office in New Mexico and Arizona.

The neatest and best weekly newspaper in New Mexico is the **Rddy Argus**. Glance over the sixty-four columns of this paper. They show healthy business.

A whole train load of people will accompany the firemen to Santa Fe on the Fourth of July.

The city of Albuquerque just now is receiving more advertising than any other city in the west.

Take a week off and go to Jemez, where the trout are fairly jumping out of the water to be caught.

It is estimated that \$10,000,000 are annually expended in Italy by American and English tourists.

There are only one hundred and twenty-four applicants for teachers' positions in Phoenix, Arizona.

The convicted murderers of Sheriff Frank Chavez were refused a new trial Saturday by Judge Hamilton.

Next Saturday **THE CITIZEN** will contain eight pages, and will contain a complete review of the prosperity of the city.

The business men of this city are giving **THE CITIZEN** a splendid patronage, because they see that the paper is working to deserve it.

The newspaper men of this city are ranging to entertain in a suitable manner visiting members of the profession during the Territorial Fair.

The material of which John Brown's fort and Abraham Lincoln's log cabin were made is now stacked up in a couple of barns in Chicago.

The day of petty town jealousy has passed in New Mexico. The Las Vegas Optic will realize this fact, and the sooner the better for that paper.

The Santa Fe has got out handsomely illustrated circulars relative to New Mexico in general, and the Las Vegas Hot Springs hotel in particular.

The president, of course, should have appointed some one else than a corporation lawyer as attorney general, but it wouldn't have been regular.

Silver, lead, cattle, iron, and the spirits of the western people are rising right along. Free coinage and high tariff would give us a regular boom.

There are 13,000 more men than women in Utah. This will be surprising to those who imagined that the men in Utah had from two to twenty wives apiece.

THE CITIZEN wishes that every paper in the territory would devote one issue to Albuquerque, and will help any one of the territorial publishers secure business for such a publication.

This city has all the details settled up-on for the biggest Territorial Fair ever held, and the exhibition will be so complete and extensive that visitors will be pleased, entertained and instructed.

THAT Peralta-Reeves land grant in Arizona is one of the thinnest schemes ever concocted to steal a vast domain. The claimant has not established a shadow of title in the land court, which is now hearing the case at Santa Fe.

THE CITIZEN is getting madder ever minute, and devotes its editorial space to **THE CITIZEN**. It would be more profitable if it used the space describing the proposed celebrations in that city.

THE CITIZEN is a queer paper. It does not wish newspaper correspondents to visit Las Vegas, and insults them if they do. Enterprisers in other towns are belittled by that paper. It has been a positive injury to Las Vegas for many years.

Now, **WILLIAM LOCHS** of San Juan county, is preparing a splendid exhibit for the Fourth National Irrigation Congress. His example is a shining one and should be followed by leading citizens all over New Mexico. Keep the ball rolling.

The Masons of Las Vegas have erected a magnificent temple, a credit to the craft and the city in which it is situated, and the fraternity throughout New Mexico will gather there on June 24 and help dedicate the building in due and ancient form.

The Atlanta exposition, which will be opened on the 18th of next September, promises to be very successful. The people of that town have been working for a long time on this exposition, and they have spent a large sum of money to make it a success.

Santa Fe county can make a splendid exhibit of fruits and cereals at the Fourth National Irrigation Congress if it will. Let the farmers, orchardists and horticulturists of that county beat themselves. The attendance at the congress will be large, and the county that is not represented will be the loser.

Two better men than Colonel Max Frost, as chairman, and Hon. Walter C. Hadley, as secretary of the territorial committee of the National Irrigation Congress, could not have been selected. They know the territory intimately, have an extensive acquaintance, are respected and valuable citizens, and are great workers.

THE CITIZEN Chieftain says: "Albuquerque has two of the best newspapers in the southwest. **THE CITIZEN** is simply a hummer, and the Democrat is good enough for a place ten times as big as the Duke city. The people up there should be satisfied, for either of their dailies are better than anything printed in Denver or Kansas City."

GOV. PRINCE.

One of the brightest men in the Mesilla convention was ex-Governor L. Bradford Prince of New Mexico. We quote the following from the press report of his brief address:

"We westerners believe that the American people are as honest as they are patriotic. We do not believe that the eastern people want to set up a dishonest dollar, but we do believe they have not educated as they should be. Such a convention should be held in the east. I want to say a few words on the topic of honest money. We want money that is honest. We want money that is sound. I believe that Mr. Garfield's idea that the best money is the highest priced money is not true. The best money is that which has always will have stability. The best dollar is not a high priced, floating dollar, but the best dollar is the dollar of absolute stability, and that is the dollar of bimetallism. The only true and honest dollar that the world has ever seen is the constantly appreciating gold dollar."

PLATE 60.

The death of Henry V. Harrie, which took place yesterday morning at Elmwood Hot Springs, this county, is a public calamity to this city and county, and all the people mourn his untimely death. No man in the territory had more friends. He was absolutely without faults as a brother, public official and citizen. He was serving his fourth term as county clerk, and his books are left as models of neatness. His funeral will be attended by the whole city, and every mark of respect will be exhibited by his loving friends.

He is the wholegist of how Mr. Carr happens to be at Las Vegas, which has come to the care of the Optic. About six weeks ago Mr. Carr asked for the position of agent and correspondent for **THE CITIZEN**. When he arrived he was assigned to Las Vegas to write up the Masonic dedications and Montezuma hotel opening, and was instructed to secure all the business possible to help pay the expenses, but to do the work whether he secured a subscriber or a cent's worth of advertising. He is doing this, and it does not interfere with the business of either of the Las Vegas daily papers.
